

EVOLVE[®]

True Definitive Care for BPH.

Asking your doctor these questions will help you get a better understanding of your treatment options.

If you're diagnosed with BPH, here are some important questions to ask your doctor before deciding on a treatment. Remember, the more you know, the more confident you'll be that you're making the right choice for you.

Q: What are ALL of my treatment (medication, traditional surgery, and minimally invasive procedures such as EVOLVE[®]) options?

Q: Could these treatments have side effects? What are they?

Q: Will multiple treatments or life-long use be required with a particular course of therapy?

Q: Are you familiar with the EVOLVE[®] Laser Treatment for BPH?

Q: How much time off from normal activities would be required if I choose treatment with the EVOLVE[®] Laser?

Q: What changes can I expect following treatment with the EVOLVE[®] Laser?

Q: After treatment with the EVOLVE[®] Laser, could my condition return, requiring re-treatment?
